

Rainner Yobelgates Franceisten Nainggolan

PS. Rebo, East Jakarta, Indonesia | 0821-2359-5108 | ryfranceisten@gmail.com

I am a web developer with a strong interest in application development and technology. I am accustomed to thinking logically, solving problems in a structured way, and learning new things quickly. I am continuously motivated to grow and build digital solutions that are useful for users and business needs.

Work Experience

Software Engineer • PT Kolink Network Solution

April 2025 - Present

- Develop and maintain three main projects: ACS, Warehouse Management System (WMS), and Ecovia.
- For the ACS project, handle attendance systems and ZKTeco/UBio device integration, including implementation, troubleshooting, and technical support for client requirements.
- Assigned to Thailand to handle technical requirements and coordinate directly with clients Bluzen Group and Thai Oil.
- For the WMS project, develop features supporting product, stock, goods movement, and warehouse location management.
- For the Ecovia project, develop a location-based platform that helps users find destinations and place information, view reviews and ratings, and access community content.

Web Developer • Freelance

October 2023 - April 2025

- Managed end-to-end client website development, from UI design in Figma and website development to database management and team coordination throughout the development process.
- Developed an online store website to display product catalogs, receive orders, and support digital customer transactions.
- Developed a web system for an eyewear store to record and manage sales transactions in a more structured manner.
- Developed a travel/bus web system for transaction records and the management of reservations and trip bookings.

Web Developer • PT Satu Visi Digital

June 2022 - October 2023

- Developed Stylease, a subscription-based branded clothing rental platform, including borrowing workflows and stock management for each product/item.
- Worked on a book-recording website for the SBY-ANI Gallery Library in Pacitan, East Java, including technical support and troubleshooting during data entry; during the assignment, had the opportunity to meet Mr. Susilo Bambang Yudhoyono in person.

Web Developer Intern • PT Industri Telekomunikasi Indonesia

January 2021 - March 2021

- Completed an internship as a Web Developer, focusing on the development of a tourism profile website.

Education

SMK PRESTASI PRIMA

Software Engineering • 2019 - 2022

Participated in competitions such as KCSI and Markoding, earned an LSP certification, and completed personal and freelance projects during my studies.
